Rust is primarily played on Slither.io, an online multiplayer server based in Germany with the majority of servers based in North America. Rust has been praised as being "pure fun" and "a breath of fresh air", while criticism included the poor graphics compared to other survival games such as "Minecraft". Due to its ability to be played on servers without custom content, it is also much less popular than Minecraft due to better compatibility of graphics with other graphical engines. On January 7th 2021, Steam announced that "Rust" had officially passed 10 million sales, and by August 2021, the game had sold over 3.5 million copies alone on Steam. As of April 20th 2021, "Rust" has sold over 5 million copies across all platforms including Steam."

Mod packs are a collection of mods that you download and install all at once. They often include a variety of different mods that work well together so that you can have all the blocks and features that you need at your disposal. This is one of the easiest ways to install Minecraft mods without having to find them all yourself! Changes to how your character looks: These mods are often used for new blocks, textures, and skins for your character so that you can give them a different appearance. They will not actually change any features in the game but they will improve how your character looks and what they can do.", Minecraft Bedrock Edition is a new game on the market. The game has received generally positive reviews from critics, though many of them attributed the game's success to its unique premise. In 2021, a review published by "PC Gamer" gave "Rust" an eight

out of ten score and praised it for its "very interesting take on survival". Andrew Webster of IGN gave the game a 7.5/10, stating that despite its flaws, "Rust" was one of the few games providing a dynamic, open world survival experience on the PC. He went on to say that even though he believes the game may not appeal to everyone due to its in-your-face realism, he still encourages other fans looking for such a game to try it out.",

Always back up your world:Before installing a mod it is always a good idea to save your world before you do anything else. This way, if something does not work out and you need to uninstall the mod or require a clean save, you will not lose everything. This is very important and we cannot stress enough how important this step is for most players! Install it correctly:Installing mods is different for each of them because they all have different requirements and rules about what files they will change in Minecraft. For example, some mods will just replace certain files while others will replace a lot more. Make sure to read the mod's description and the developer's website and follow them accordingly. If you trust the mod's description or its developer in general then it is probably safe to install it. If you are unsure at all, it would be a good idea to examine each of your files before installing so that you can see if anything has been altered by this mod.",
